PROFESSIONAL SUMMARY

User-minded Web Developer with expertise in designing and developing websites and applications that prioritize usability and adaptability. Skilled in creating aesthetically pleasing interfaces and exceptional UX elements. Experienced in both large-scale collaborations and individual projects.

EXPERIENCE

May 2020- July 2022

Front-end Developer | Snowbirds IT Services | Butwal, Nepal

- Developed and maintained web portals and websites using HTML, CSS, JavaScript, and PHP.
- Assisted in website deployment and troubleshooting.
- Designed web interfaces and created web-based solutions.
- Utilized Git for version control and demonstrated strong proficiency with the ReactJS framework.
- Collaborated with back-end developers and stayed updated on emerging technologies.
- Conducted unit testing and used SQL for database management.
- Stayed up to date on emerging technologies to incorporate the latest trends and best practices into development processes

During my tenure, I demonstrated extraordinary skills as a committed, hardworking, and creative web developer. I contributed positively to a harmonious work environment and successfully participated in numerous projects.
